§ 10 · RESEARCH

Suppliers **Nordic**

Puori, Nordic Naturals, Swedish Nutra. Wholesale contacts, DE distributors, hero SKUs.

Prepared: 2026-04-24 **Purpose:** Wholesale outreach dossier for the Nordic cluster — Puori (DK), Nordic Naturals (US/NO), Swedish Nutra (SE) **Output of:** Phase 1 curated-third-party supplier research

---

Executive Summary

Three brands, three distinct wholesale postures. **Puori is the easiest wholesale win** — public EU B2B portal, Slovakia warehouse, existing German distributor path. **Swedish Nutra is the most eager partner** — manufacturer-first model means they actively seek resellers and have a named EU Sales Director. **Nordic Naturals is the slowest and most gated** — no named EU entity, routed through Watsonville HQ or third-party EU wholesalers, but carries the strongest omega-3 brand equity in the world. Recommended sequence below.

---

1. PUORI (Denmark)

Identity & HQ

- **Brand:** Puori (contraction of "Pure Origin")
- **Website (EU):** https://puori.eu · **Global:** https://puori.com · **DE:** https://www.puori.com/de/de_de
- **Legal entity:** Puori ApS
- **HQ:** Havnegade 41, 1058 Copenhagen, Denmark (CVR: 32566731)
- **Founded:** 2009 (originally as PurePharma)
- **Employees:** ~35 global, across 5 continents
- **Investors:** Juggernaut Capital Partners (US), Scale Capital (DK)

Founder / Leadership (personal angle)

- **Oliver Amdrup-Chamby** — Co-founder & CEO. LinkedIn: linkedin.com/in/oliver-amdrup-chamby-50160833/
- **IMPORTANT NOTE:** Oliver posted on LinkedIn in late 2025 that "my adventure at Puori is nearing its end – and a new chapter begins." A leadership transition may be underway. Verify current CEO before personalizing outreach.
- **Julius Heslet** — Co-founder & Co-CEO. Still active per Tracxn.
- Both founded Puori in 2009 out of frustration with rancid, untested fish oil. Both were CrossFit Europe regional directors (2011–2015) — **athletic credibility runs deep**.

Full Product Catalog (EU-available SKUs)

Omega-3 / Fish Oil: - **O3 — Ultra Pure Fish Oil Capsules** (120ct, 2000mg omega-3, 1250 EPA / 500 DHA) - **O3L — Ultra Pure Fish Oil Liquid** (150ml, lemon, MCT + rosemary stabilized)

Collagen & Protein: - **CP1 — Collagen Peptides** (grass-fed bovine) - **CP2 — Whey Protein & Collagen Blend** - **PW1 — Grass-fed Whey Protein** (Bourbon Vanilla, Dark Chocolate) - **PB — Plant Protein Booster**

Vitamins & Minerals: - **M3 — Magnesium Complex** - **D3 — Vitamin D 2500IU** (with coconut oil) - **V — Multivitamin & Minerals** - **C3 — Vitamin C Effervescent** - **B — B-Complex Pure Energy**

Performance: - **C+ — Creatine+ Performance Support** (EU dose limited to 3g per EU law)

Gut: - **SB3 — Probiotics & Prebiotics**

Bundles: - **P3 — Health Essentials Sachets** (O3 + M3 + D3 combined daily pack — strong longevity-stack positioning)

Accessory: Shaker bottle.

Wholesale Program (PUBLIC — easiest path)

- **Portal:** https://wholesale.puori.com/account/login
- **Apply:** https://puori.com/pages/become-a-wholesaler
- **Wholesale contact email: b2bsupport@puori.com**
- **Partnerships email: sales@puori.com**
- **Press:** press@puori.com
- **Existing German distributor path:** Puori is already distributed in DE by **Organic Friends & Sports GmbH** (Hamburg). Contact: **Timo Lehnert — timo.lehnert@organicfriends.de**, +49 40 3869923-0, Große Elbstraße 63, 22767 Hamburg. HRB 104527 Hamburg. This is a meaningful detail: we may be able to buy from them directly OR go over them to Puori HQ.
- **MOQ / terms / margins:** NOT public. Typical Nordic premium supplement wholesale = **40–55% off RRP** (keystone+). Expect MOQ of 50–100 units per SKU or €500–€1,000 minimum spend. Payment terms almost certainly **prepay or pro-forma for new accounts**, moving to Net-30 after 3–6 months.

Fulfillment & Lead Time to Germany

- **EU warehouse:** Senec, Slovakia (B2C confirmed — very likely same for B2B within EU)
- **Cut-off:** Orders before 12:00 CET ship same day; before 15:00 next day
- **Lead time to Germany: 2–3 business days** ground
- **Free shipping threshold (B2C benchmark):** €60–€99

Regulatory / Certifications

- **Clean Label Project certified** (EU SKUs specifically — both O3 and O3L listed on cleanlabelproject.org/puori-o3-omega-3-eu)
- **IFOS certified** for fish oil purity/freshness
- **Friend of the Sea certified** anchovies from South Pacific
- **GMP certified**
- Third-party tested against **200+ contaminants** (pesticides, heavy metals, BPA, PFAS)
- **BVL status:** Products already sold in DE via Organic Friends & Sports GmbH → **registration almost certainly already complete** for the SKUs currently on Shop-Apotheke and nu3.de
- **Ashwagandha watchlist:** NOT APPLICABLE. Puori does not sell ashwagandha. Clean from that angle.

Brand Values Fit (score: 9/10)

- Transparency baked into every product via QR-code batch tests
- Founded by athletes, not marketers
- Clean Label Project is the highest-trust EU consumer-facing cert for supplements
- “Pure Origin” ethos maps 1:1 onto Alche’s research-backed / editorial authority positioning
- **Minor caveat:** Whey and creatine tilt more “sports performance” than “longevity” — but O3, M3, D3, CP1 are pure longevity plays

Current EU Retail Footprint (competitive context)

- **Shop-Apotheke** (German online pharmacy giant)
- **DocMorris** (implied — cross-German pharmacy adjacency)
- **nu3.de** (premium supplement e-tailer)
- **Goodfood-Shop.de**
- **Niche Beauty** (Germany)
- **Nutritienda** (ES/DE)
- **Amazon.de** (via Organic Friends & Sports)
- **Feedzone.eu** (authorized EU pan-EU reseller)
- **QAEZ International** (Amsterdam, airline/hotel loyalty partner — B2B2C)
- **NOT on:** dm, Rossmann, Müller, traditional Reformhaus chains → **Alche differentiation gap is wide on the curated / editorial side**

Alche Differentiator

Alche is the **only Berlin-based, AI-curated, editorial longevity platform** selling Puori. Shop-Apotheke treats Puori as one SKU among 50,000. nu3 is a commodity supplement warehouse. Alche positions Puori's O3 as the **Omega-3 pillar of a longevity stack** with context, protocol guidance, and membership-gated depth — not a grid of products.

2025–2026 News

- Exhibitor at **Natural Products Expo West 2025** (March, Anaheim)
- **QAEZ International partnership** (Amsterdam) — Puori now in airline/hotel loyalty catalogs alongside premium fashion/beauty
- **David Beckham exposure** — Puori CP1 Collagen featured in David Beckham's supplement cupboard on Netflix, generated significant social buzz
- Possible CEO transition — see leadership note above

Social Signals

- @puorilife Instagram: **73K followers** (up from 63.4K in 2022 → ~15% 3-year growth, modest)
- @puori_danmark: 3.8K (DK-specific)
- LinkedIn: 2,987 followers (small for a brand this age — indicates under-leveraged B2B channel = opening for us)
- TikTok presence under @puorilife

Outreach Angle

> *"Hi Oliver / b2bsupport team — we're Alche, a Berlin-based AI longevity platform launching Q3 with 10K on the waitlist. We want to lead our omega-3 category with **Puori O3** as our hero SKU — Clean Label Project + IFOS is the only combination we trust for our Editorial Research Council. We see you're already on Shop-Apotheke via Organic Friends & Sports, but there's no curated longevity-first retailer in DACH positioning your O3 alongside a membership-driven stack. 10-minute call to explore wholesale terms?"*

---

2. NORDIC NATURALS (USA / Norway)

Identity & HQ

- **Brand:** Nordic Naturals
- **Website:** https://www.nordic.com (primary) · https://www.nordicnaturals.com
- **HQ:** 111 Jennings Drive, Watsonville, California 95076, USA
- **Norwegian manufacturing:** Nordic Pharma Inc AS, Ropnesveien 71, 9107 Kvaløya (Tromsø), Norway — +47 77 66 86 60. Wholly owned by Nordic Naturals / the Opheim family.
- **Founded:** 1995 by **Joar Opheim** (still CEO and still Norwegian — seasick sailor who couldn't find fresh fish oil in the US, brought Norwegian processing standards to California)
- **Employees:** ~375 across 5 continents
- **Annual revenue:** ~$29M (Feb 2026 estimate) — modest size relative to brand ubiquity
- **Distribution:** 35+ countries, 200+ SKUs

Leadership / personal angles

- **Joar Opheim** — Founder & CEO. Norwegian immigrant, Opheim family owns both Nordic Naturals and the Tromsø processing plant (Nordic Pharma, built 2014). LinkedIn: linkedin.com/in/joar-opheim-774913aa/ — **strong Nordic heritage narrative fits Alche's storytelling**.
- **Chris Legge — Sales Manager, EMEA** — LinkedIn: linkedin.com/in/leggechris/ — **PRIMARY EU WHOLESALE CONTACT.** Previously at Quest Nutrition. Likely email: **clegge@nordicnaturals.com** (verify — Nordic Naturals uses [first_initial][last] format at 92% of employees per RocketReach).
- **Rory Henderson** — Senior Manager of Business Development, covering APAC / EMEA / China. Grew intl. sales $12M → $30M. LinkedIn: linkedin.com/in/rory-henderson-30009a20/ — likely rhenderson@nordicnaturals.com.
- **Brian Terry** — Sr. Director of Sales (US-focused, DeSoto TX based).
- **Open role (Nov 2025 posting):** European Sales Manager — https://www.linkedin.com/jobs/view/european-sales-manager-at-nordic-naturals-4321802134 → **signals Nordic Naturals is actively expanding EU sales team. Good timing.**

Full Product Catalog (abbreviated — 200+ SKUs total)

Two-line structure: - **Retail Line** — Ultimate Omega, DHA, EPA, Omega-3, Children's DHA, Algae Omega - **Professional Line (Pro)** — ProOmega, ProDHA, ProEPA (sold through doctors/pharmacies) — **same formula, different label. Matters for Apotheke-channel positioning.**

Hero SKUs (most relevant for Alche longevity positioning): - **Ultimate Omega** — 1280mg omega-3, 90/120/180 softgels, the flagship - **Ultimate Omega 2X** — 2150mg omega-3, highest concentrate retail - **Ultimate Omega 2X with Vitamin D3** - **ProOmega 2000** — 2150mg omega-3, professional line equivalent - **ProOmega-D** — 1280mg omega-3 + 1000 IU D3 combo - **Algae Omega** — vegan EPA+DHA (relevant for plant-based longevity segment) - **Arctic Cod Liver Oil** — traditional Nordic format, liquid, vitamins A + D naturally present - **Omega-3 Phospholipids** (krill-based) - **Complete Omega** (omega-3-6-9 with GLA) - **Omega-3 + CoQ10** - **Magnesium Complex, Zinc, Vitamin D3 Vegan, Vitamin C** — supporting SKUs - **Kids line:** Children's DHA, Baby's DHA, Children's Multivitamin Gummies

Wholesale Program (GATED — hardest path)

- **Distributor application:** https://www.nordicnaturals.com/en/Retailers/Contact_Our_Wholesale_Department/152
- **Worldwide distributor locator:** https://www.nordic.com/worldwide-distributors/
- **Contact paths (4 emails, protected on page):** 1. International Inquiries 2. Retail Wholesale Retailer Inquiries 3. Medical Professional Inquiries 4. Nordic Naturals Norway office
- **Main phone (US):** 1-800-662-2544
- **Norway phone (Tromsø):** +47 77 66 86 60
- **Best direct route:** Chris Legge (Sales Manager EMEA) on LinkedIn + clegge@nordicnaturals.com

Existing EU B2B Distributors (competitive / alternative paths)

- **DSN Group (Poland)** — dsn.group/brands/nordic-naturals — BUT ships EX-Works from US warehouse, $5,000 MOQ, buyer pays customs. **Not ideal for us.**
- **Powerbody.eu** — powerbody.eu/brand-nordic-naturals — EU-based pan-European wholesaler, already stocks the catalog. Low-friction fallback if direct deal stalls.
- **DistributionGate** — EX-Works US. Avoid.
- **Olivit (UK)** — info@olivit.co.uk, +44 (0) 1904 486 334 — official UK authorized distributor, post-Brexit complications for DE.
- **Vita-Store.eu** — smaller EU retailer.
- **No named German importer of record** surfaced in public research. The SKUs selling on Shop-Apotheke and DocMorris likely come via Powerbody or a reseller pipeline, not a direct Nordic Naturals GmbH.

MOQ / Margins (industry benchmark — not public)

- **Expected wholesale discount:** 40–50% off RRP for direct accounts, 30–40% off through EU distributors like Powerbody (who take their own margin).
- **MOQ:** Typically $2,500–$5,000 opening order for direct US accounts. EU distributor route (Powerbody) much lower — often €500–€1,000.
- **Payment terms:** Prepay / wire transfer for new accounts. Net-30 after established history.
- **Lead time to Germany:** Via Powerbody (EU-warehoused): **3–5 days**. Via direct US shipment: **10–21 days** + customs + duties.

Regulatory / Certifications

- **IFOS 5-star certified** (Ultimate Omega consistently 5-star — the omega-3 gold standard)
- **Friend of the Sea certified** (all omega-3 products, since 2015)
- **MSC Chain of Custody certified** Norwegian processing plant (Nordic Pharma, Tromsø)
- **Non-GMO Project Verified**
- **GMP certified**
- **Triglyceride molecular form** (not ethyl esters) — 70% better absorption, distinguishing technical claim
- **BVL status:** Products actively sold on Shop-Apotheke and DocMorris → existing BVL registration is highly likely for current DE-market SKUs. We'd need confirmation of which SKUs are DE-compliant before listing.
- **Ashwagandha watchlist:** NOT APPLICABLE. Nordic Naturals does not sell ashwagandha products in any region I could verify. Safe.

Brand Values Fit (score: 10/10)

- **The omega-3 gold standard.** Editorial reviewers (Healthline, altruvawellness, Brainflow) rank Nordic Naturals #1 purity for a reason.
- Family-owned (Opheim family) → aligns with "founder story" editorial narrative
- Tromsø processing plant is visually stunning — ready-made editorial / content asset
- Non-GMO, triglyceride form, IFOS 5-star, MSC, FOS — the **four-box checklist of legitimacy**
- **The only gap:** Nordic Naturals is already everywhere in Europe — differentiation burden is on us.

Current EU Retail Footprint

- **Shop-Apotheke, DocMorris, Newpharma** (pan-EU online pharmacies)
- **Supplementa.com** (DE specialty)
- **Naturprodukte Europe** (DE specialty)
- **iHerb DE** (volume e-tailer)
- **Powerbody, Vita-Store, Olivit** (EU B2B distributors)
- **NOT on:** dm, Rossmann, Müller, Reformhaus → physical retail gap is wide
- **Amazon.de:** yes, heavily

Alche Differentiator

Nordic Naturals is already on Shop-Apotheke and DocMorris — **we can't win on exclusivity**. We CAN win on **context and curation**: positioning Ultimate Omega 2X as the "entry SKU" of an expert-curated longevity protocol alongside Puori D3, our own CGM-adjacent content, and membership-gated dosing guidance. The hook for Nordic Naturals: **"Berlin's only editorial longevity platform = incremental brand equity, not incremental SKU count."**

2025–2026 News

- **New hires (late 2025/early 2026):** Bassam Faress (APAC BD, Jan 2026), Jacqueline Qiu (Director Performance Marketing, Dec 2025), Kathleen Quinn (Creative Production, Nov 2025) → investing in global sales/marketing infrastructure
- **Open European Sales Manager role** (Nov 2025 LinkedIn posting) → signals EU expansion intent — **STRONG TIMING SIGNAL**
- Exhibitor at **Expo West 2026** (Anaheim)

Outreach Angle

> *"Chris — saw the European Sales Manager role posted in November. We're Alche, launching Q3 in Berlin as the first AI-curated longevity platform in DACH with 10K on the waitlist and a Scientific Council including [names]. Ultimate Omega 2X is the definitive omega-3 globally, but in DE it's sitting on Shop-Apotheke pages next to 200 commodity brands. We'd like to discuss making Nordic Naturals our anchor omega-3 SKU in a curated editorial context — we drive qualitative brand lift, not just volume. 15 minutes to explore?"*

---

3. SWEDISH NUTRA (Sweden)

Identity & HQ

- **Brand:** Swedish Nutra (parent: Swedish Nutra AB)
- **Website:** https://swedishnutra.com · alt https://www.swedish-nutra.se
- **HQ:** Lodgatan 19, SE-211 24, Malmö, Sweden
- **Phone:** +46 40 787 01
- **Founded:** 2013 (family business, heritage in pharmaceutical/nutrition manufacturing)
- **Production capacity:** Up to 1 million liquid supplement shots daily (largest liquid supplement manufacturer in the Nordics)
- **Distribution:** 37–40+ countries, 6 continents

Leadership / personal angles

- **Family-owned business.** Founders/CEO not publicly named on website — Swedish business registry (Bolagsverket) lookup recommended for verification.

- **Adrienne Bakodi — Sales Director Europe** — LinkedIn: linkedin.com/in/adriennebakodisales/. 20+ years international sales experience. **THIS IS OUR PRIMARY CONTACT.**
- Likely email: **adrienne@swedishnutra.com** or **adrienne.bakodi@swedishnutra.com** (verify format)
- Alternative: **sales@swedishnutra.com** (direct sales line)

Brand Portfolio (4 in-house brands; 50+ products)

- **Swedish Nutra** (flagship — vitamins, minerals, joint, beauty, performance)
- **Swedish Collagen** (premium liquid marine collagen)
- **True Collagen** (premium hydrolysed collagen, pharmacy-focused)
- **Essentials 100** (essentials/value line)

Full Catalog Categories

- **Family Health:** children's multivitamins, family supplements
- **Vitality:** iron (liquid), multivitamins, probiotics
- **Beauty:** hair/skin/nail support (collagen-forward)
- **Performance:** joint, energy, bone health

Flagship SKUs: - **Swedish Collagen Deluxe 12,500mg Marine Collagen** (liquid shots, 20x25ml or 30x25ml daily packs) — **5x the dose of standard collagen**, includes hyaluronic acid, biotin, vitamin C. Sugar-free. - **Marine Collagen liquid shots** — berry, orange, lemon, apple flavors - **Liquid Iron** (high-absorption format) - **Liquid Multivitamin** - **True Collagen hydrolysed** (pharmacy/private-label format)

Wholesale Program (MANUFACTURER-FIRST — easiest YES, most flexible terms)

- **Business model:** Primarily a B2B manufacturer. Distribution = reselling their owned brands. Private/white label = separate track with 60+ proven formulas.
- **Reseller page:** https://www.swedishnutra.com/copy-of-private-label
- **Primary contact: hello@swedishnutra.com** (distribution/partnership)
- **Sales: sales@swedishnutra.com**
- **Named contact: Adrienne Bakodi (Sales Director Europe)** via LinkedIn
- **Phone:** +46 40 787 01

MOQ / Margins

- **Swedish Nutra is manufacturer-first → they ACTIVELY pursue resellers → most favorable terms of the three.**
- **Expected wholesale discount:** 45–60% off RRP (higher than commodity brands because they control manufacturing)
- **MOQ:** Typically lower than US brands — **€500–€2,000 opening order** is realistic for branded line; private label MOQ higher (€10K+)
- **Payment terms:** Likely more flexible — pro-forma for first 2–3 orders, Net-30 thereafter
- **Bulk wholesale alternative: Qogita.com** — aggregator, already lists Swedish Nutra B2B

Fulfillment to Germany

- **Ship from:** Malmö, Sweden (direct manufacturer → the closest EU hub to Berlin of all three brands)
- **Lead time to Germany:** 2–3 business days (just across Öresund + through Denmark)
- **Liquid shots logistics:** Heavier per unit than capsules — factor into landed cost

Regulatory / Certifications

- **HACCP certified**
- **GMP certified**
- **Halal certified**
- **World's first ASC-certified collagen peptides & gelatin** (Aquaculture Stewardship Council) — legitimate differentiation claim for marine collagen
- Clinical testing referenced: 95% of users reported skin improvement (in-house study)
- **BVL status:** Products sold in Ireland via Lir Pharmacy and 750+ pharmacies. No direct Shop-Apotheke listing surfaced → **BVL notification for DE market would likely need to be completed or verified per SKU.** Swedish Nutra AB (as EU entity) can handle

this directly → much simpler than Nordic Naturals.

- **Ashwagandha watchlist:** NOT APPLICABLE as a catalog risk. Swedish Nutra's core catalog is vitamins, minerals, collagen, probiotics. Confirm no ashwagandha SKU before listing (their 50+ product range means one could exist — flag for audit).
- **Clean Label Project:** NOT certified (unlike Puori). Minor gap for Alche's editorial standard.

Brand Values Fit (score: 8/10)

- **Strengths:** Swedish manufacturer pedigree, ASC-certified marine collagen (world-first), high absorption liquid format is genuinely differentiated, family business narrative
- **Gaps:** No Clean Label Project cert, less transparent on third-party testing data than Puori, less consumer-brand-known than Nordic Naturals
- **Private-label angle is significant for Phase 2:** Swedish Nutra's 60+ proven formulas + white-label capacity could power Alche's own-brand collagen line. Plan the conversation to cover both: (1) curated retail now, (2) white-label partnership for Phase 2.

Current EU Retail Footprint

- **Lir Pharmacy (Ireland) + 750 Irish pharmacies** (major market)
- **Amazon UK** (own brand store)
- **SwedishNutrition.co.uk** (exclusive UK online)
- **Superbulk.com** (B2B bulk wholesale)
- **Qogita** (B2B marketplace)
- **NOT strongly present:** Germany, France, Nordic retail chains, Reformhaus
- **DE opportunity:** Swedish Nutra is underdistributed in Germany — **biggest white-space play of the three**

Alche Differentiator

This is the **cleanest competitive story** of the three. Swedish Nutra has near-zero DE retail footprint. Alche can potentially negotiate category exclusivity for DACH in exchange for a committed launch volume + editorial feature placement. "Swedish Collagen Deluxe" is genuinely a flagship-worthy hero SKU with no EU competitor matching the 12,500mg dose.

2025–2026 News

- **Collagen market at $10B with 11% CAGR projected to $26B by 2033** (Grand View Research) — riding a rising tide
- **Europe's Top Collagen 2026** award referenced in brief — I could NOT independently verify this specific award title in NutraIngredients Europe Awards 2026 results. **Flag:** verify the award claim with Swedish Nutra before using in pitch copy. The brand self-describes as "award-winning" and "Top 10 Manufacturer in Europe" but the specific "Europe's Top Collagen 2026" title does not appear on NutraIngredients Europe Awards 2026 finalists/winners list per April 2026 search.

Outreach Angle

> *"Adrienne — we're Alche, an AI longevity platform launching Q3 in Berlin with 10K on the waitlist. We've mapped the DACH collagen category and Swedish Nutra is the only manufacturer with ASC-certified marine collagen at a clinically relevant dose. There's virtually no Swedish Nutra retail footprint in Germany today — we'd like to discuss making Swedish Collagen Deluxe our flagship beauty-longevity SKU with potential category exclusivity for DACH. Separately, would love to explore white-label partnership for our Phase 2 own-brand line. 20 minutes next week?"*

RANKINGS & RECOMMENDATIONS

Outreach Priority (email in this order this week)

1. PUORI — email first (this week) - **Why:** Public B2B portal, known sales email, existing DE distributor proves logistics work, Clean Label Project cert matches Alche's editorial bar exactly, smallest-brand-biggest-fit, Berlin-Copenhagen cultural proximity. - **Risk:** Possible CEO transition (Oliver Amdrup-Chamby's LinkedIn signal) may slow decision-making. Address to b2bsupport@puori.com and sales@puori.com in parallel; consider CC'ing Julius Heslet via LinkedIn to cover both founders. - **Hero SKU: Puori O3 (capsules)** + **O3L (liquid)** as omega-3 anchor + **P3 Health Essentials Sachets** as longevity-stack starter kit (O3+M3+D3 pre-bundled — lets Alche launch with a "protocol" not a "product").

2. SWEDISH NUTRA — email second (this week) - **Why:** Manufacturer-first means they actively want resellers. Biggest DE white space of the three = strongest negotiating position for Alche. Named EU sales director. Closest EU warehouse to Berlin. - **Risk:** No Clean Label Project cert. Less consumer brand recognition. Must verify "Europe's Top Collagen 2026" award claim before using. - **Hero SKU: Swedish Collagen Deluxe 12,500mg Marine Collagen liquid shots** (20-pack box format) — the unique dose, ASC cert, and liquid absorption story are all pitchable in one sentence. - **Bonus play:** Open the Phase 2 white-label conversation in the same first email — Swedish Nutra is set up for it and it makes us strategically stickier to them.

3. NORDIC NATURALS — email third (next week) - **Why:** Brand prize is enormous, but path is slowest. No EU legal entity, EMEA Sales Manager based in US, pending European Sales Manager hire means decision layer may be in flux. Existing ubiquity on Shop-Apotheke means less exclusivity leverage. - **Risk:** They may route us to Powerbody.eu (EU distributor) for first 12 months. That's fine operationally — lower MOQ, EU warehouse, fast shipping — but it kills any pretension of an exclusive brand relationship. - **Approach:** Direct LinkedIn message to **Chris Legge (Sales Manager EMEA)** + follow-up email to **clegge@nordicnaturals.com**. CC **rhenderson@nordicnaturals.com** (Senior BD) if no response in 10 days. - **Hero SKU: Ultimate Omega 2X** (retail line) as the "strongest omega-3 on the market" positioning — OR **ProOmega 2000** (professional line) if Alche wants to lean into the editorial / clinical credibility angle. Both identical formula, different label.

Recommended Hero SKU by Brand (final picks)

BRAND	HERO SKU	WHY
Puori	**O3 Ultra Pure Fish Oil Capsules** (120ct)	Clean Label + IFOS + Friend of the Sea = most-certified omega-3 on the market. Premium-but-accessible pricing.
Nordic Naturals	**Ultimate Omega 2X** (60/120 softgels)	The 2150mg concentrate is the definitive strongest-omega-3 story. IFOS 5-star. Editorial prestige.
Swedish Nutra	**Swedish Collagen Deluxe 12,500mg** (liquid shots)	World's first ASC-certified marine collagen, unique dose, liquid absorption = three differentiators in one SKU.

Gaps / Concerns (read before outreach)

1. **PUORI — CEO transition risk.** Oliver Amdrup-Chamby posted late-2025 that his "adventure at Puori is nearing its end." Confirm current CEO before personalizing any outreach. Email b2bsupport@puori.com as primary; don't name an individual unless verified current.
2. **NORDIC NATURALS — no EU legal entity.** No German importer of record surfaced in public research. The Apotheke-channel SKUs most likely flow through Powerbody (EU distributor) or an unnamed resellers' network. This means (a) BVL registration responsibility may sit with an intermediary, which limits our own compliance control, and (b) we'll probably be routed through Powerbody for fulfillment unless we commit to $5K+ direct orders. Decide upfront whether we want direct-brand relationship (slower, requires scale) or distributor route (faster, less exclusive).
3. **SWEDISH NUTRA — "Europe's Top Collagen 2026" award claim UNVERIFIED.** The specific award title does not appear on the NutraIngredients Europe Awards 2026 finalists/winners list per public search. Swedish Nutra self-describes as "award-winning" and "Top 10 Manufacturer in Europe." Before putting the claim in any pitchbook or marketing copy, verify with Adrienne Bakodi which specific award and issuing body.
4. **SWEDISH NUTRA — no Clean Label Project certification.** For an editorial longevity platform whose trust stack leans on third-party testing, this is a real gap versus Puori. Mitigate by asking Swedish Nutra for batch-level COAs (Certificates of Analysis) and publishing them as part of Alche's transparency page.
5. **ALL THREE — ashwagandha watchlist.** Neither Puori nor Nordic Naturals currently sells ashwagandha products, so no immediate risk. Swedish Nutra has a 50+ SKU range — audit their full catalog on first call to confirm no ashwagandha SKU. Germany has not banned ashwagandha (BfR Communication 39/2024 advisory only for vulnerable populations), but Denmark has banned it outright (2023), Netherlands proposed ban (2025). Trend is toward restriction. Avoid ashwagandha in any launched SKU.
6. **MOQ / payment terms are ALL opaque.** None of the three brands publish wholesale terms publicly. Every single figure in this doc's margin/MOQ/term estimates is a research-based range. Get specifics in writing before committing to any launch SKU list.
7. **BVL registration status is ALL assumed, not verified.** Puori and Nordic Naturals SKUs on Shop-Apotheke are almost certainly BVL-registered, but we have not confirmed the specific SKUs. Swedish Nutra has no visible DE Shop-Apotheke presence → likely needs fresh BVL notification per SKU we want to list. Budget 2–6 weeks per SKU for BVL notification + €50K potential fine exposure if misnotified. Work with Organic Friends & Sports GmbH (Puori's DE distributor) — they've done this before — as a benchmark partner.

Immediate Next Actions (this week)

1. **Draft three personalized outreach emails** using the angles above. Send Puori + Swedish Nutra today. Hold Nordic Naturals for a LinkedIn InMail to Chris Legge first (warmer first touch).
2. **Verify Puori CEO status** via LinkedIn before personalizing. If Oliver has exited, address the CEO's stated successor or route via Julius Heslet.
3. **Verify Swedish Nutra's "Europe's Top Collagen 2026" claim** directly with Adrienne Bakodi on first call.
4. **Budget €3–5K for first orders** per brand to hit likely MOQs while negotiating better terms.
5. **Register Alche's entity with BVL** before any products ship — this is the hard prerequisite, not a negotiation item.
